

ESTC Explanatory Notes

The following notes explain each section of the form.

1) The ESTC is a member of the Mountaineering Council of Scotland (MCofS) who provide third party liability cover to the ESTC. It is required of the ESTC to provide your full name and address (including postcode) to MCofS. (For members residing abroad, this data is still required but individuals do not have third party liability cover.) This information may be sent electronically to MCofS.

2) Other contact information will be held by the ESTC to assist in arranging club events.

3) Emergency contact – Someone the ESTC can contact if you are injured / reported missing etc. (not necessarily next of kin). Preferably not another ESTC member as they could be on the same outing.

4) All data will be used to create a membership list to be circulated to members. This will not be passed on by the ESTC to other parties, but the club cannot guarantee data security. To stop your details being circulated, select “no” in the box. If you wish a partial opt out, contact the membership secretary: membership@estc.org.uk

5) Select Yes or No. (One person per household could opt out).

6) All new members (this includes those who have not been a member for over four years) and those renewing by the 31st July only pay £20; otherwise the subscription is £25. The reduced fee automatically applies to those paying by standing order even if the initial set up is after 31st July. Download form from www.estc.org.uk

The membership fee includes membership of the MCofS. This covers members for civil liability insurance while engaged in club activities, i.e. your liability towards other people, not your health or welfare. If you are skiing abroad you should take steps to get appropriate extra insurance for travel, baggage/equipment, rescue and medical costs.
